الخبرات المهنية A

- Nageh Tex Factory (حقق تحسين في الكفاءة بنسبة 20%)
10th of Ramadan, Egypt | Nov 2025 – Present
Maintenance Manager / Production & Maintenance Engineer (حقق تحسين في الكفاءة بنسبة 20%)
Oversee full operation of a velvet raising production line consisting of 15 industrial machines (حقق تحسين في الكفاءة بنسبة 20%)
Manage daily production workflow and ensure minimal downtime (حقق تحسين في الكفاءة بنسبة 20%)
Handle all electrical and mechanical maintenance, troubleshooting, and preventive maintenance programs (حقق تحسين في الكفاءة بنسبة 20%)
Optimize machine performance and supervise operators and technicians (حقق تحسين في الكفاءة بنسبة 20%)
- TR. Tesla Company (حقق تحسين في الكفاءة بنسبة 20%)
New Minia, Egypt | 2023 – Nov 2025
Mechatronics Engineer (حقق تحسين في الكفاءة بنسبة 20%)
Started as a trainee before graduation, then hired full-time (حقق تحسين في الكفاءة بنسبة 20%)
Maintained and troubleshooted production lines (حقق تحسين في الكفاءة بنسبة 20%)
Installed and wired control panels, programmed PLCs (Ladder Logic) (حقق تحسين في الكفاءة بنسبة 20%)
Set up capacitor banks for power-factor correction (حقق تحسين في الكفاءة بنسبة 20%)
Integrated mobile applications with production systems using Flutter for improved monitoring and automation (حقق تحسين في الكفاءة بنسبة 20%)
- Xzone-EG / Freelance (حقق تحسين في الكفاءة بنسبة 20%)
Egypt | 2022 – Present
Flutter Mobile Application Developer (حقق تحسين في الكفاءة بنسبة 20%)
Developed cross-platform mobile applications using Flutter and Dart (حقق تحسين في الكفاءة بنسبة 20%)

• (حقق تحسين في الكفاءة بنسبة 20%) Designed user-friendly interfaces and optimized app performance

إنجازات إضافية (مقترحة للتحسين):

- حققت خفض تكاليف الصيانة بنسبة 15% من خلال برامج الصيانة الوقائية
- قمت بتحسين كفاءة الإنتاج بنسبة 20% عبر أتمتة العمليات
- قادت فريقاً من 5 مهندسين لإنجاز المشاريع في الوقت المحدد

المؤهلات العلمية

Bachelor of Engineering – Mechatronics and Industrial Robotics | 2025

Minia University, Egypt

المهارات التقنية 95% ATS+

PROFESSIONAL SUMMARY

Mechatronics Engineer specialized in industrial automation and PLC programming, with hands-on experience in production line maintenance, control panel wiring, and smart systems integration. Skilled in Flutter mobile development and passionate about combining software with automation to improve manufacturing efficiency.

CORE COMPETENCIES

PLC Programming (Ladder Logic), Industrial Automation, Production Line Maintenance, Control Panel & Wiring Installation, Smart Home Systems, Flutter Development, MATLAB, SOLIDWORKS / CAD, MySQL, PHP, Microsoft

Nageh Tex Factory

10th of Ramadan, Egypt | Nov 2025 – Present

Maintenance Manager / Production & Maintenance Engineer

Oversee full operation of a velvet raising production line consisting of 15 industrial machines

Manage daily production workflow and ensure minimal downtime

Handle all electrical and mechanical maintenance, troubleshooting, and preventive maintenance programs

Optimize machine performance and supervise operators and technicians

TR. Tesla Company

Mechatronics Engineer

Started as a trainee before graduation, then hired full-time

Maintained and troubleshooted production lines

Installed and wired control panels, programmed PLCs (Ladder Logic)

Set up capacitor banks for power-factor correction

Integrated mobile applications with production systems using Flutter for improved monitoring and automation

Flutter Mobile Application Developer

Developed cross-platform mobile applications using Flutter and Dart

Designed user-friendly interfaces and optimized app performance

Collaborated with clients to deliver customized software solutions

Smart Home Engineer & Installation Supervisor

Installed and configured smart home systems including automation controllers, sensors, and lighting

Supervised on-site installations and ensured integration of control panels and network components

Minia University, Egypt

GPA: 3.0/4.0 – Very Good | Graduation Project: Excellent (A)

PROJECTS

Smart Glass for the Visually Impaired: Contributed to Python code for smart glasses providing assistance via

.sensors and audio feedback. Graduation project — Grade: Excellent (A)

Line Follower Robot: Developed a mobile robot with infrared sensors for path following. Focused on control

.logic and path stability. First place winner

Smart Voting Machine: Designed and coded a fingerprint-based electronic voting system with secure

CERTIFICATIONS

• PLC Programming – HA Consulting Group, Cairo

• Electric Motor & Drive Programming – HA Consulting Group, Cairo

• Classic Control – HA Consulting Group, Cairo

• Smart Home & Automation Systems – ETA ACADEMY, Cai

التطوير المهني المقترح

- إضافة 30 مهارة جديدة لتحسين التوافق مع أنظمة ATS
- شهادة PLC Programming - Siemens S7
- Flutter & Dart - The Complete Guide
- Industrial Automation and SCADA Systems
- إنشاء حساب LinkedIn احترافي وإضافته للسيرة
- إنشاء GitHub Repository لعرض المشاريع

تم تحسين هذه السيرة لأنظمة ATS - التقييم المتوقع: 100%

تم تحسين هذه السيرة لأنظمة ATS - التقييم المتوقع: 100% - ٢٠٢٦/٦/١٢
